- * To install this product, please login as Administrator or a member of Administrators Group (or as a user having administrative right).
- * End all applications before beginning the installation.
- * When this product is installed on Windows Vista(R), Windows(R) 7, or Windows(R) 8, the [User Account Control] screen appears. If you are a user with administrator privileges, select [Allow]. If you are a user without administrator privileges, select a user with administrator privileges, enter a password, and select the [OK] button.
- * This product cannot be installed on a network disk or removable disk.
- * This product cannot be installed in the folder where Rack2-Filer, Rack2-Viewer or Rack2-Filer Smart is installed.
- * When installing this product, do not use environment-dependent characters (exclusive to Unicode) for the login user name and program installation folder.
- * When installing .NET Framework, the following message may appear.
 "An error occurred while downloading the file (Destination for the download). What would you like to do?" or "The installation of (.NET Framework product name) appears to have failed. Do you want to continue the installation?"
 If the above message appeared, install the .NET Framework 4.0 Full product that is indicated by Windows Update or the Microsoft home page. Then, download the Magic Desktop installer and install it.

2. Cautions for Uninstallation

- * To uninstall this product, log in as the user who installed the product. This user must have administrator privileges.
- * End all applications before beginning the uninstallation.
- * Even after Magic Desktop is uninstalled, the application data is not deleted. If the data is unnecessary, delete all of the files in (%appdata%\PFU\MagicDesktop).
- * When this product is uninstalled on Windows Vista(R), Windows(R) 7, or Windows(R) 8, the [User Account Control] screen appears. If you are a user with administrator privileges, select [Allow]. If you are a user without administrator privileges, select a user with administrator privileges, enter a password, and select the [OK] button.

3. Cautions for Use

- * This product does not support virtual environments such as remote desktop.
- * Do not log off or shutdown while an operation is being processed.
- * A Facebook account is required when using the dashboard function to link with Facebook.
- * When running this product, do not use environment-dependent characters (exclusive to Unicode) for the login user name.

4. License Agreement for Built-in Software
