

## Installation Procedure

The procedure to use when running Rack2-Filer Smart update is described below.

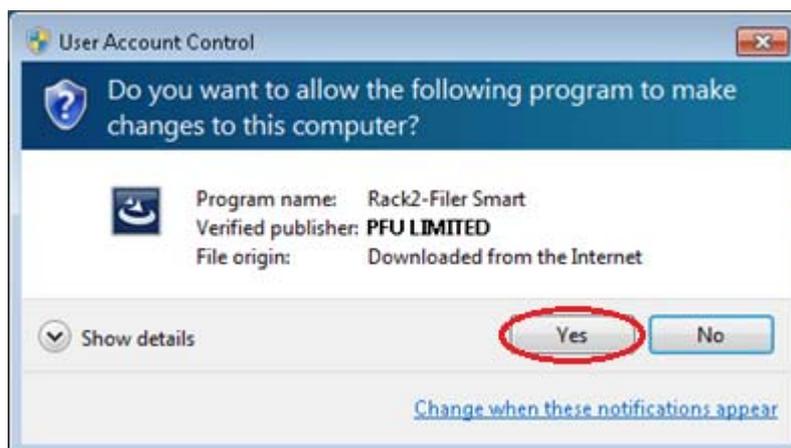

### 1. Points to be Checked Before Installation

- Download Rack2SmartV10~~LXX~~wwup.exe from the following URL (~~LXX~~ is the level of the update).  
[http://www.pfu.fujitsu.com/en/products/rack2\\_smart/download.html](http://www.pfu.fujitsu.com/en/products/rack2_smart/download.html)
- If a dialog that confirms how to handle the file appears, select [Save].
  - \* In this case, make a note of the location in which Rack2SmartV10~~LXX~~wwup.exe is saved.
- Copy Rack2SmartV10~~LXX~~wwup.exe to the computer to which the modifications are to be applied.

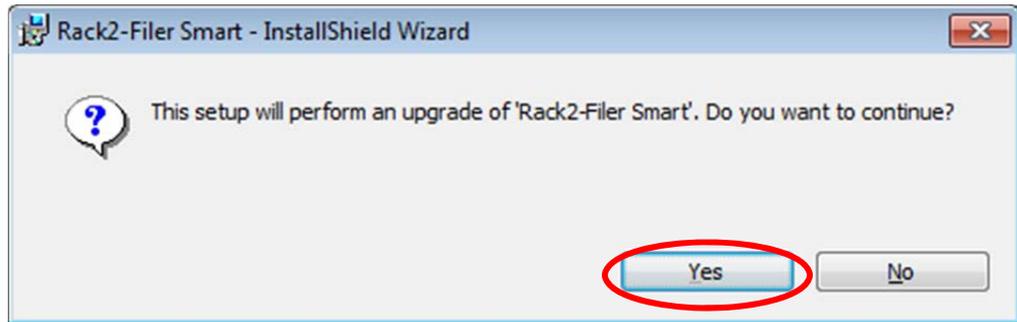

### 2. How to install

- Log on to Windows® as a user with Administrators rights (administrative rights for the computer).
- Exit all of the applications before running Rack2SmartV10~~LXX~~wwup.exe.
- Run Rack2SmartV10~~LXX~~wwup.exe.

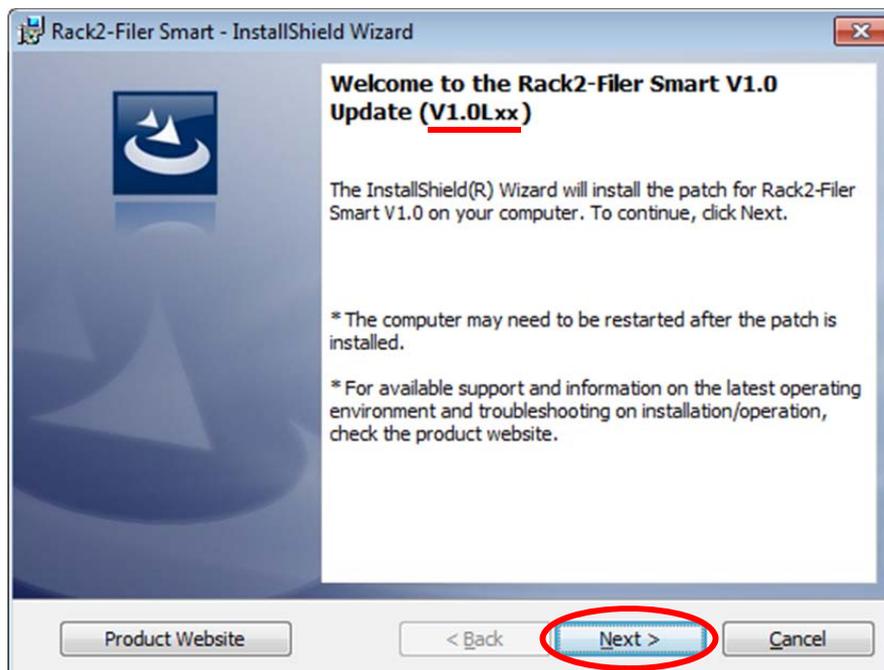

\* When Windows Vista®, Windows® 7, Windows® 8, Windows® 8.1 or Windows® 10 is used, the [User Account Control] window might appear after Rack2SmartV10~~LXX~~wwup.exe is run. If this window appears, click [Continue] or [Yes].

\* Click [Yes] when the following message is displayed.

(1) The installer is started, showing the window as below. Click [Next].

\* Underlined part is the level of the update.

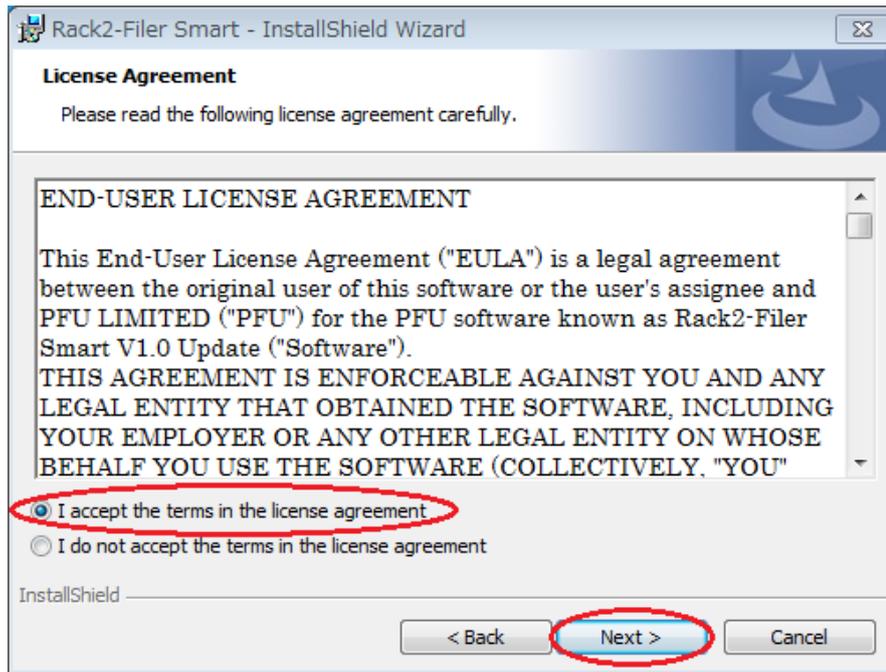

(2) The [License Agreement] window appears.

Read the license agreement carefully.

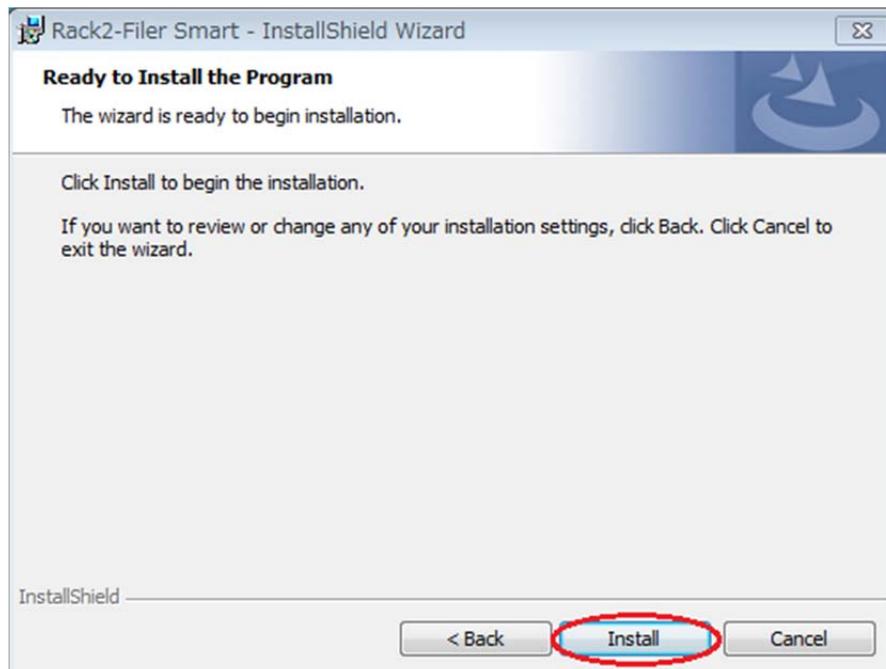

If you accept the terms in the license agreement, select the [I accept the terms in the license agreement] checkbox and click the [Next] button.

If you do not accept the terms in the license agreement, click [Cancel] to stop installation.

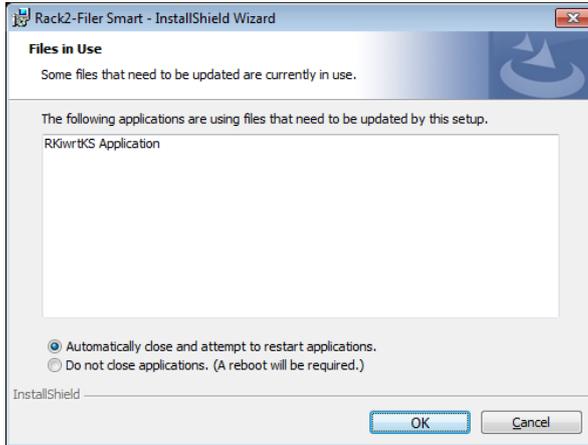

To use this product, you need to accept the terms in the license agreement.

(3) The window below appears. Click [Install] to start installation.

- \* The following message is displayed when the programs related to Rack2-File Smart (such as the Rack2-Bookshelf, Rack2-Viewer, and Rack2-TempTray, Raku2 Smart ImageWriter) have been started. (Other applications are sometimes displayed.)

In the case of Windows Vista®, Windows® 7, Windows® 8, Windows® 8.1 and Windows® 10

In the case of Windows® XP

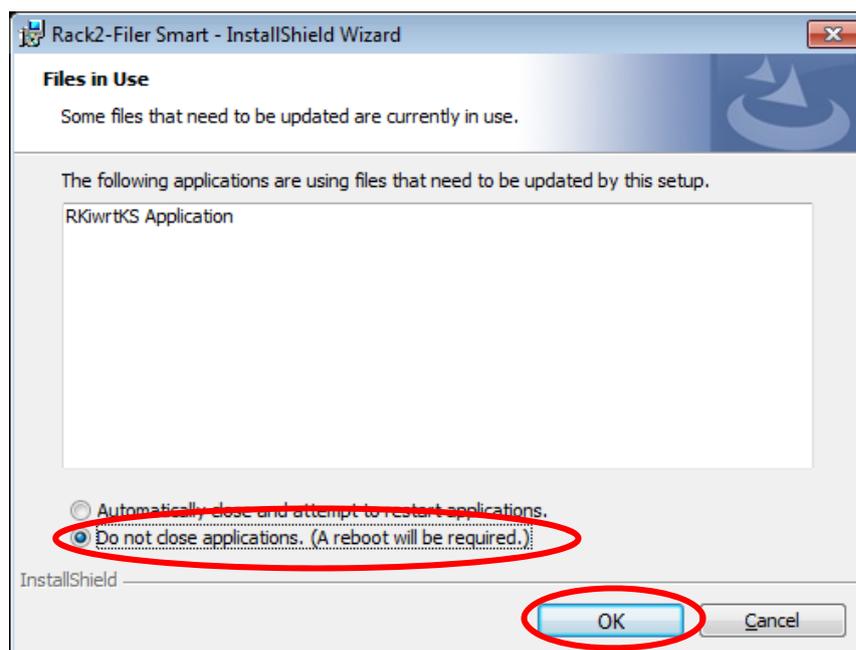

**If you are using Rack2-File Smart or the applications indicated on the screen, continue to install after closing them.**

Operate as below.

When Windows Vista®, Windows® 7, Windows® 8, Windows® 8.1 or Windows® 10 is used

**After closing every running application, select [Do not close applications. (A reboot will be required.)] and click [OK].**

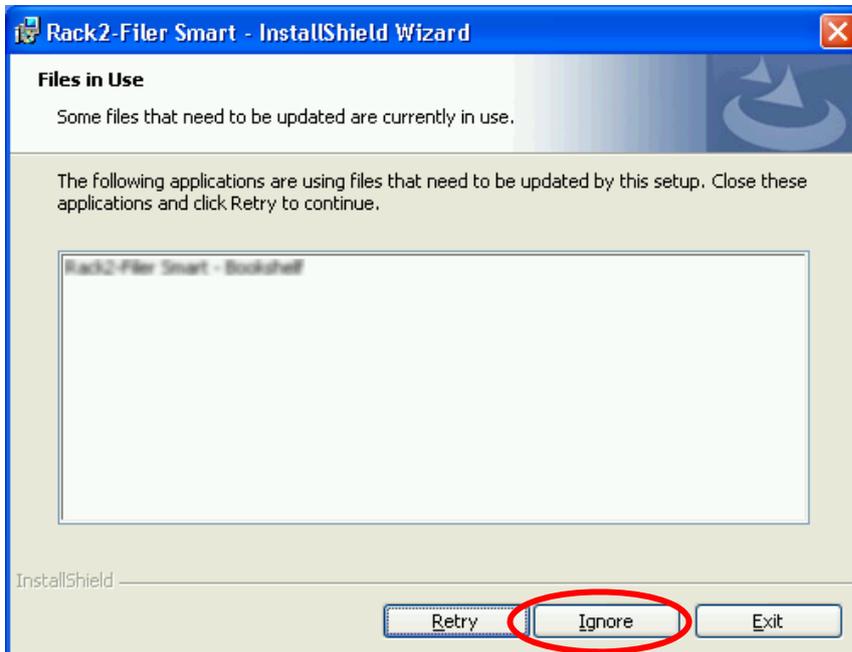

Even if it is not clear how to close running applications, select [Do not close applications. (A reboot will be required.)] and click [OK].

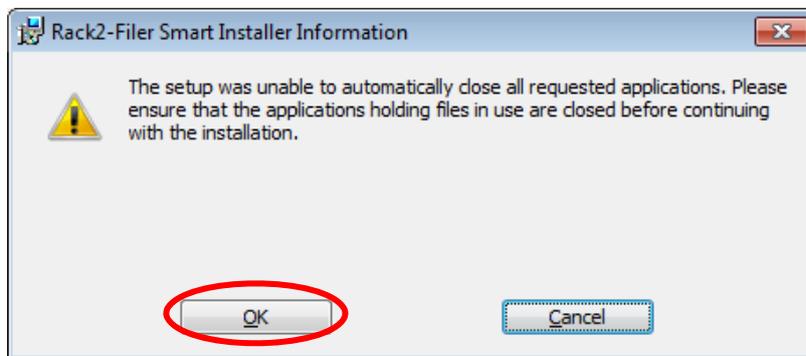

When Windows® XP is used

**After closing every running application, click [Ignore].**

Even if it is not clear how to close them, click [Ignore].

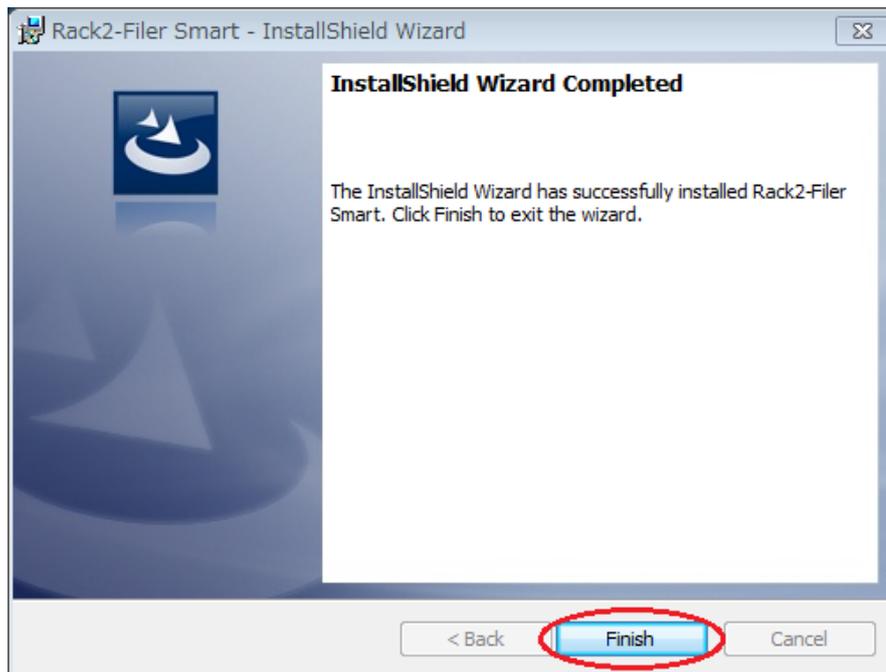

If the following message is displayed after the above screen, click [OK].

If you click [Cancel] on the above message, the install is cancelled. In this case, you need to run the update installer downloaded or online update again.

- (4) When installation of the Rack2-Filer Smart V1.0 update is complete, the window appears to indicate that installation is complete. Click [Finish] to finish installation.

In the case of the message below is displayed after [Finish] is clicked, click [Yes] to restart the system and use Rack2-Filter Smart.
