

# Environmental Awareness & Communication

We strive to increase our employees' environmental awareness through efforts such as holding environmental facility tours and sharing environmental information.

We also respond to inquiries about the environment from our customers.

## Environmental Facility Tours

We held environmental facility tours at the ProDes Center for our employees to learn about the environmental equipment up-close. We entered environmental facilities which are normally off-limits to deepen employees' environmental awareness and their understanding of the facility's role and environmental burden.

## CO<sub>2</sub> Reduction/Light Down Campaign

We participated in the "CO<sub>2</sub> Reduction/Light Down Campaign", held by the Ministry of the Environment, from June 21 (summer solstice) to July 7 (Cool Earth Day).

We used our website for employees and digital signs to provide information that encouraged employees to turn the lights off after 8pm both at work and at home.

## Creation Workshop

As a regional contribution in Kahoku City, elementary and junior high school children from the local area were invited to participate in a "PFU Creation Workshop".

This year, the participants built a computer for educational purposes (by soldering the parts) and programmed a sensor or servomotor to operate it.

Information about PFU image scanners (that have received Eco Mark certification) was distributed to the participants.

Purposes

## In-house Food Recycling System

Every year since October 1999, we have produced vegetables at a company-owned farm (Eco-farm) on land owned by the company (in Kahoku City). The vegetables from this farm are provided in the company cafeteria on a menu of locally produced food. Kitchen waste from the cafeteria is converted into compost that is used on the farm, allowing us to build and maintain a system for recycling food.

## Collection of plastic bottle caps

We contributed to the reduction of waste emissions by donating plastic bottle caps.

(Implemented at: Headquarters, ProDeS Center, Yokohama Headquarters, Kansai Branch/Tokai Branch/Shinbashi Service Center, service bases, etc.)

[Fiscal 2018: 249,989 bottle caps (weight : 580.7 kg)]

## Sale of drinks at a subsidized price for donation

From the sale of drinks to our company employees, part of the proceeds (2 yen from each bottle) are given to the "Fujitsu Group Malaysia Eco-Forest Park" in Sabah State, Malaysia to help restore the tropical rainforests.

(Implemented at: Headquarters, ProDeS Center, Yokohama Headquarters, Kansai Branch)

[Fiscal 2018: 27,206 drinks (donation amount 54,412 yen)]

## Sharing Environmental Information

Our company now presents information related to environmental activities, introduces the environmental activities of each department, and covers current topics, event information, and environmental news on our in-house intranet.

Also, using "Idea Snap Activities", which allow for improvement activities to be shared throughout the company, we are showing the environmental effect of reducing the amount of paper or electricity used. We are trying to enhance the motivation for improvements among our employees by regularly making an honorable recognition of good proposals.

## Requests and Inquiries from Outside Our Company

In fiscal 2018, we responded to 232 requests and inquiries, such as questionnaires and survey requests regarding the environment submitted to our company by customers, the government, industrial groups, and others. There were no environmental claims.

	Requests and Inquiries	Number of Requests
1	Requests about products and services (Example: Request for REACH/RoHS surveys, survey on the use of chemical substances specified by a customer, etc.)	142
2	Requests other than those related to products (Example: Request for provision of data about the environment from customers, the government, industry organizations, etc.)	90
	Total	232
